GO_Biological_Process_2021
positive regulation of attachment of spindle microtubules to kinetochore (GO:0051987)
cellular response to corticosteroid stimulus (GO:0071384)
negative regulation of DNA-templated transcription, elongation (GO:0032785)
regulation of DNA topoisomerase (ATP-hydrolyzing) activity (GO:2000371)
positive regulation of DNA topoisomerase (ATP-hydrolyzing) activity (GO:2000373)
CRD-mediated mRNA stabilization (GO:0070934)
positive regulation of isomerase activity (GO:0010912)
protein localization to microtubule (GO:0035372)
dosage compensation (GO:0007549)
dosage compensation by inactivation of X chromosome (GO:0009048)
