GO_Biological_Process_2021
positive regulation of tumor necrosis factor production (GO:0032760)
positive regulation of tumor necrosis factor superfamily cytokine production (GO:1903557)
regulation of chemokine (C-C motif) ligand 5 production (GO:0071649)
regulation of tumor necrosis factor production (GO:0032680)
positive regulation of tau-protein kinase activity (GO:1902949)
regulation of amyloid fibril formation (GO:1905906)
positive regulation of dendritic cell cytokine production (GO:0002732)
response to misfolded protein (GO:0051788)
regulation of tau-protein kinase activity (GO:1902947)
positive regulation of DNA-binding transcription factor activity (GO:0051091)
