GO_Biological_Process_2021
neutrophil degranulation (GO:0043312)
neutrophil activation involved in immune response (GO:0002283)
neutrophil mediated immunity (GO:0002446)
cytokine-mediated signaling pathway (GO:0019221)
extracellular matrix organization (GO:0030198)
interferon-gamma-mediated signaling pathway (GO:0060333)
antigen processing and presentation of peptide antigen via MHC class I (GO:0002474)
regulation of immune effector process (GO:0002697)
collagen fibril organization (GO:0030199)
cellular response to interferon-gamma (GO:0071346)
