GO_Biological_Process_2021
chylomicron assembly (GO:0034378)
modulation by symbiont of host process (GO:0044003)
retina homeostasis (GO:0001895)
very-low-density lipoprotein particle assembly (GO:0034379)
cytokine-mediated signaling pathway (GO:0019221)
interleukin-12-mediated signaling pathway (GO:0035722)
cellular response to interleukin-12 (GO:0071349)
neutrophil degranulation (GO:0043312)
triglyceride catabolic process (GO:0019433)
amyloid fibril formation (GO:1990000)
