GO_Biological_Process_2021
neutrophil degranulation (GO:0043312)
neutrophil activation involved in immune response (GO:0002283)
neutrophil mediated immunity (GO:0002446)
extracellular matrix organization (GO:0030198)
cytokine-mediated signaling pathway (GO:0019221)
platelet degranulation (GO:0002576)
collagen fibril organization (GO:0030199)
regulation of complement activation (GO:0030449)
regulation of immune effector process (GO:0002697)
regulation of humoral immune response (GO:0002920)
