GO_Biological_Process_2021
defense response to Gram-positive bacterium (GO:0050830)
positive regulation of dendritic cell cytokine production (GO:0002732)
positive regulation of I-kappaB phosphorylation (GO:1903721)
phosphatidylinositol metabolic process (GO:0046488)
defense response to bacterium (GO:0042742)
glycerophospholipid biosynthetic process (GO:0046474)
regulation of neutrophil activation (GO:1902563)
positive regulation of leukocyte mediated immunity (GO:0002705)
regulation of dendritic cell cytokine production (GO:0002730)
phosphate-containing compound metabolic process (GO:0006796)
