GO_Biological_Process_2021
triglyceride catabolic process (GO:0019433)
acylglycerol catabolic process (GO:0046464)
cholesterol transport (GO:0030301)
triglyceride metabolic process (GO:0006641)
regulation of very-low-density lipoprotein particle remodeling (GO:0010901)
negative regulation of lipoprotein particle clearance (GO:0010985)
negative regulation of triglyceride metabolic process (GO:0090209)
chylomicron assembly (GO:0034378)
chylomicron remnant clearance (GO:0034382)
negative regulation of cell cycle phase transition (GO:1901988)
