GO_Biological_Process_2021
regulation of defense response (GO:0031347)
angiotensin maturation (GO:0002003)
regulation of response to external stimulus (GO:0032101)
negative regulation of RNA polymerase II regulatory region sequence-specific DNA binding (GO:1903026)
intracellular sequestering of iron ion (GO:0006880)
purine deoxyribonucleotide catabolic process (GO:0009155)
hematopoietic stem cell differentiation (GO:0060218)
regulation of peptidyl-cysteine S-nitrosylation (GO:2000169)
aldehyde biosynthetic process (GO:0046184)
regulation of systemic arterial blood pressure by renin-angiotensin (GO:0003081)
