GO_Biological_Process_2021
negative regulation of cellular respiration (GO:1901856)
glucose import (GO:0046323)
glucose import across plasma membrane (GO:0098708)
negative regulation of protein polyubiquitination (GO:1902915)
regulation of hematopoietic stem cell proliferation (GO:1902033)
hexose import across plasma membrane (GO:0140271)
negative regulation of actin filament depolymerization (GO:0030835)
regulation of systemic arterial blood pressure by renin-angiotensin (GO:0003081)
regulation of actin filament depolymerization (GO:0030834)
positive regulation of lamellipodium morphogenesis (GO:2000394)
