GO_Biological_Process_2021
defense response to bacterium (GO:0042742)
phosphatidylethanolamine acyl-chain remodeling (GO:0036152)
neutrophil mediated immunity (GO:0002446)
neutrophil activation involved in immune response (GO:0002283)
neutrophil degranulation (GO:0043312)
phosphatidylethanolamine metabolic process (GO:0046337)
innate immune response (GO:0045087)
antibacterial humoral response (GO:0019731)
phosphatidic acid metabolic process (GO:0046473)
phosphatidic acid biosynthetic process (GO:0006654)
