GO_Biological_Process_2021
fatty acid beta-oxidation (GO:0006635)
fatty acid catabolic process (GO:0009062)
mitochondrial ATP synthesis coupled electron transport (GO:0042775)
aerobic electron transport chain (GO:0019646)
endoplasmic reticulum to Golgi vesicle-mediated transport (GO:0006888)
cellular protein modification process (GO:0006464)
fatty acid oxidation (GO:0019395)
COPII-coated vesicle budding (GO:0090114)
neutrophil activation involved in immune response (GO:0002283)
neutrophil degranulation (GO:0043312)
